

Meet Andrea! Our 2015 Wayne County Youth Success Story!

Andrea entered the Wayne County Workforce Development youth program in April 2014 as a motivated, soon-to-be mother who was interested in the nursing field. WD provided Andrea transportation to attend a Certified Nursing Assistant training program at Wayne-Finger Lakes BOCES.

Andrea completed the program and obtained her NYS CNA certification! She was in the Summer Youth Employment Program, obtaining a Teacher's Aid position at Roosevelt Daycare Center where she worked until her daughter was born. When Andrea was fit to return to work, WD assisted her with her resume and job search. In January Andrea was hired as a CNA at Clifton Springs Hospital! Before starting her employment, we assisted her in obtaining her driver's license and she purchased her own vehicle. She was recently promoted and received an increase in pay. Andrea plans on continuing her employment as a CNA and has applied for nursing school.

Congrats Andrea!
