

Meet Deongella! Our 2015 Ontario County Youth Success Story!

Deongella came to Workforce Development just over a year ago. She was a senior at Geneva High School, a young woman who was pushing through life challenges and obstacles with an intense desire to succeed.

Deon is completing her first year of college at Finger Lakes Community College, where she succeeded in obtaining a full scholarship. She obtained job readiness/work experience with Ontario County WD prior to preparing for a Social Science & Liberal Arts degree program. She has increased her sense of independence by obtaining her driver's license through our services and is saving for a car with a part time job while attending school. Her focus is education and independence and she is working hard (and succeeding) at both.

Congrats Deongella!
