

Meet Deziree! Our 2015 Yates County Youth Success Story!

Deziree came to Yates County Workforce Development for help with career direction and planning. She enrolled in the WIA Youth Program and together with her Counselor developed a plan to obtain her high school equivalency diploma, learn life skills such as budgeting, parenting and driving, and receive work experience and occupational skills training.

Deziree has been successful at reaching her goals one by one ever since! She has acquired her High School Equivalency Diploma, obtained her NYS Driver's license, bought her own car, completed a Financial Literacy class, passed the Serve Safe food safety certification and has become a Certified Electronics Health Record Specialist (Cayuga Community College.) Deziree has maintained employment in food service for nearly one year and is pursuing a career opportunity in the health care field utilizing her new-found accreditation as a Health Record Specialist.

Congrats Deziree!
