The work performed is of a general mechanical nature and may include carpentry, plumbing, painting, masonry, heating, or electrical maintenance and repair, welding, sheet metal work, locksmithing or related trades. General supervision is received from the Buildings, Grounds and Parks Supervisor. Direct supervision is exercised over the work of Building Maintenance Mechanics, Building Maintenance Workers, Laborers, and other subordinate employees. Does related work as required.

Background Investigation: Candidates may be subject to a thorough background investigation to determine suitability for appointment. Applicants may be required to authorize access to educational, employment, criminal history and other records check as part of such investigation. Criminal convictions or other offenses are subject to evaluation and may result in disqualification. Applicants will be required to submit the necessary fees for the fingerprint processing, where required.

Subjects of Examination: A written test designed to evaluate knowledge, skills and/or abilities in the following areas:

1. Building maintenance and repair - These questions test for knowledge of the basic principles, practices and techniques essential to the proper maintenance and repair of various types of buildings, including such areas as building maintenance, preventive maintenance, and minor repair of building structures, electrical, and plumbing systems. This may include maintenance and repair of roofs, windows, walls, floors, millwork, insulation, masonry, pipes and valves, electrical wiring and switches, and painting. Questions may also include topics such as the proper tools and materials used in building maintenance and repair work as well as proper and safe practices and techniques when using these tools and materials.

2. Building trades, including mechanical and electrical - These questions test for knowledge of the principles and practices involved in overseeing physical plant facilities and may include such areas as maintenance and repair activities involving carpentry, electrical systems, plumbing and sanitary systems, heating and ventilating systems, painting, masonry work, roofing, and similar types of physical plant maintenance and upkeep.

3. Review and interpretation of plans and specifications, and the preparation of estimates - These questions test for the ability to read and understand typical building plans, layouts, and technical specifications; and for the ability to calculate accurate estimates of material and labor costs.

4. Operation and maintenance of heating, ventilating and air conditioning systems - These questions test for knowledge of basic principles, practices and techniques essential to the correct operation and maintenance of heating, ventilating and air conditioning systems, including such areas as air supply and exhaust systems, circulating fan capacities, building ventilation requirements, steam, hot water, and hot air heating systems; boiler operation; the refrigeration cycle, types and characteristics of refrigerants, troubleshooting air conditioning system problems, and proper maintenance of air conditioning systems.

5. Supervision - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
